- Karmova's Orator will no longer provide blessings (during a Golden or Dark Age) to players who are in safe rooms. This includes the additional confirmed devotion rewards and the seasonal missions which are received with these blessings.

To receive your blessings, simply be outside of a safe room. For the best chance at a seasonal mission, be active and outside of a safe room when your morality's Age begins! This will ensure that seasonal missions go to active players and aren't "lost" on afk players.

- Added an FAQ for the seasonal missions: "help seasonal mission faq". Also added "help saint of winter".
