The rhrasi* are a mana-shielded race of speed, dexterity and agility. The rhrasi are the brother race of the oji-oem, however, the rhrasi are minorly superior to the oji-oems (but have a greater vulnerability).

These winged humanoids seem to be most powerful when somewhere within the fighter professions. However, their mana bonuses and magical regeneration make them considerations for magic-users as well.

The primary racial power, the mana-shield, is an advantage for any class as it allows mana to be used to block incoming health damage.

The rhrasi have one disadvantage: a high vulnerability to fire.

* plural: rhrasi
