- For the first time ever, we're running triple sun stones for the month of April. Now that we have the ascension system in place, we want to encourage people to explore the ascension options.

As such, any donation you make for the month of April will receive three times the normal sun stones.

For example, if you donate \$100, you'll get 30 sun stones. If you donate \$200, you'll get 60 sun stones. If you donate \$400, you'll get 120 sun stones.

This is the first time we've run a triple sun stone month in the 10 years of Nodeka and it might be the only time we ever do. As such, we encourage you to take advantage of it while it lasts!
